A

Prognostication, for the year of our Lord God,

1679.

Being the third from the *Bissextile*, or Leap-year, and from the Worlds Creation 5642.

Wherein is contained a brief description of the four Quarters of the Year; excellent Notes of Husbandry and Gardening, for every month in the Year.

With the Names of all the Principal Fayrs, And a Description of the High-Ways in *England* and *Wales*.

BY

JOHN WOOD-HOUSE,

Philomath.

LONDON,

Printed by *J. M.* for the Company of Stationers, 1679.

WHen you would plant or graft, consider where the wind bloweth; if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these signs, Taurus or Aquarius in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January, in the wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the mois in the month of January.

Plash hedges and lop trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Set Cucumbers and Melon seed, not above one inch in depth, from the first of April to the 20 in the increase of the Moon.

A Table of the rhombe and distance, &c. of some of the most famous Cities in the world from the Honourable City of *London*.

July.

Apply making and getting in of hay, pull Hemp that is ripe, gather Garden Beans, get Rue, and Wormwood, and Saul to strew on your floors, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extream thirst, and fervent heats, and cold taken also suddenly upon them: Take no physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,
Else in the VVinter live poor, and in want.

August.

Follow close your Corn-harvest, sowe Winter herbs in the new of the Moon, gather Garden-seeds, mowe Barly and Oats, gather Summer Fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

In the beginning of this month, and end of the former, gather Hops when they wax brown, the weather being fair, and no dew on the ground, kill Bees, make Verjuice, sowe Wheat and Rye, remove and set all slips of flowers between the two Lady-days, put Swine to Mast, remove Trees every new Moon, from September until February, especially in the new of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, forbear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

Sow Wheat and Rye, the sooner the better, for fear of rain, set Acorns and Nuts, gather Winter fruit, the weather dry, in the afternoon, and in the warm of the

the Moon. Cut Role-trees, if you desire to have store of Roles, do this once in two years, refuse not any needful physick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

MAke Vault, kill Hogs, trench Gardens with dung, set Crab-tree stocks, sowe Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements for husbandry, use wholsome meat and drink, with good exercise to preserve health.

December.

IN this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Pease, cover all your best flowers and herbs from frosts and storms, with old rotten horse-dung, lime well to your cattel, water and keep moist your medows, let horses blood, and to conclude, drink good Wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoycing that God sent his only begotten Son about this time into the world, to save all such that lay hold on him with a true and lively faith.
